

Title of the special session: Trustworthy AI for Social Impact

Objective of the special session: The special session aims to promote the development of ethical, transparent, and accountable AI systems that can be trusted to make decisions that benefit society. The track will discuss a wide range of topics, including building trust in AI systems through transparency and explainability, promoting responsible AI practices, developing AI systems that are fair and unbiased, protecting privacy and security in AI systems, and ensuring that AI systems can be trusted to make decisions that have a positive social impact.

Topic of the special session:

1. Building trust in AI systems through transparency and explainability.
2. Discrimination, Bias, Fairness, and Trustworthy AI
3. Trustworthy AI Implementation (TAII) Framework for AI Systems
4. Ensuring the ethical use of AI by promoting responsible AI practices.
5. Developing AI systems that are fair and unbiased.
6. Protecting privacy and security in AI systems.
7. Developing AI systems that can be trusted to make decisions that have a positive social impact.
8. Federated Learning for social applications.

Name and Affiliations of the proposer:

Dr P. KARTHIKEYAN
Post-Doctoral Researcher,
Research Center on AI and Sustainable Development,
Department of Computer Science and Information Engineering,
National Chung Cheng University, Chiayi, TAIWAN-62102.

Dr.S. Velliangiri
Assistant Professor,
Department of Computational Intelligence,
SRM Institute of Science and Technology
Kattankulathur Main Campus
Chennai, Tamil Nadu, India.
