Session Title: **Smart Cities in the Age of Artificial Intelligence & Block chain Technology**

Aim and Scope:

The evolution of smart cities is set to enhance everyday things with abilities of sensation, communication, computation, and intelligence so that many tasks and processes could be simplified, efficient, and enjoyable. It consists of numerous "smart things" that can been do wed with different levels and form so fintelligence and be connected together for a net work level of intelligence. At the same time, fairness and ethics in utilizing such intelligence are of extreme importance. Research on ubiquitous and trust worthy smart cities is an emerging research field covering many inter disciplinary areas that benefits humanity and will haves ignifi cant societal impacts.

The session aims to provide a platform for researchers and engineers across the world to exchange and explore state of art advances and innovations, in areas of AI, Internet of Things and Block chain Technology for building smart, secure, and sustainable cities. The objective of the session is to explore various areas of research where in smart technologies like AI , IoT, and Block chain can be integrated to facilitate creation of smart cities with the foremost goal of improving the quality of life. Papers describing original work are invited in any of the areas listed below.

Sub Topics:

1) Intelligent Transportation Systems (ITS) using Deep learning and Internet of Things
2) Smart Medicine and Healthcare using Artificial Intelligence and IoT
3) Smart Learning and Education using AI and Block chain
4) Smart Logistics and Retail using IoT and Block chain
5) Smart Agriculture using AI and IoT
6) Government asset registration management with Block chain
7) Block chain and IoT for Travel and Transportation
8) Adoption of AI and IoT for Smart Waste Management
9) Digital identity management with block chain
10) AI and IoT based Smart Policing Systems

Session Chairs:

Mr. Abhirup Khanna
Assistant Professor, UPES Dehradun

Dr. Divya Srivastava
Assistant Professor, Bennett University

Technical Programme Committee:

1) Dr. Tanupriya Chaudhary, Associate Professor, UPES, Dehradun
2) Dr. Pallavi Goel, Associate Professor, Galgotia University, Noida
3) Dr. Shamik Tiwari, Associate Professor, UPES, Dehradun
4) Dr. Yogita Thakran, Assistant Professor, NIT, Meghalaya
5) Dr. Neelam Goyal, UIET, Panjab University
6) Dr. Lalit Kane, Associate Professor, UPES Dehradun
7) Dr. Kuldeep Yadav, Associate Professor, College of Engineering Roorkee
8) Dr. K.P Sharma, Assistant Professor , NITJALANDHAR
9) Dr. Madhusi Verma, Assistant Professor, Bennett University
10) Dr.Pradeep Kumar, Associate Professor, Jaypee University of Information Technology
